- 1. <u>Criteria</u>. Minimum Armed Services Vocational Aptitude
 Battery (ASVAB) Test scores are based on extensive and ongoing
 studies of students and curricula at class "A" schools. Studies
 also indicate that test scores are linked to striker success in
 chosen rating.
- a. Although motivation is a major factor in completing many courses of instruction, there is a direct correlation between test scores and the success rate in completing schools required for career progression.
- b. The test scores in this article are minimum criteria. Command career counselors should use these scores in conjunction with the Rating Entry for General Apprentices /Career Reenlistment Objectives (CREO) when guiding members to careers via class "A" schools and on-the-job training (OJT). Updated CREO's can be found on the Navy Personnel Command Web site at www.npc.navy.mil , Perform to Serve, under the Career Info tab.

- 2. <u>Waivers</u>. In cases where a member has shown a particular aptitude for a rating and is considered an exceptional candidate, the commanding officer may use the following general guidelines to recommend a test score waiver for class "A" school.
- a. Based on command endorsement and quota availability, Navy Personnel Command (NAVPERSCOM), Enlisted Community Managers (BUPERS-32) will consider granting waivers on a case basis using the following general guidelines:
- (1) No waivers authorized for single score minimum requirement (i.e., minimum WK = 45).
- (2) Six points (maximum) on two test score combinations (i.e., VE + AR).
- (3) Nine points (maximum) on three test score combinations, including those where one score is doubled (i.e., AR + 2MK + GS).
 - (4) Twelve points (maximum) on a four score combination.
- b. Retest of ASVAB. Although this paragraph provides an avenue for members who do not meet class "A" school or rating entry requirements, retesting is advised to meet minimum scores. See MILPERSMAN 1200-050.
- c. Admitted Pre-Service Drug Usage. For ratings which stipulate "no history of drug usage," waivers for top-performing Sailors with admitted pre-service drug usage will be considered on a case-by-case basis. Submit 1306 waiver request to the appropriate BUPERS-32, ECM. For ratings requiring a security clearance, Sailors must be able to obtain the appropriate security clearance to be eligible for the rating to which they are requesting to convert. Sailors will be granted tentative conversion approval pending the adjudication of their security clearance from Department of the Navy Central Adjudication Facility (DONCAF). If adjudication results in their not being able to obtain the appropriate security clearance, they will not be able to convert into that rating. For submarine and nuclear field duty enlisted ratings, pre-service substance abuse waivers may be granted for marijuana only per MILPERSMAN 1306-402 and 1306-502. For these ratings, submit 1306 waiver request to

NAVPERSCOM, Nuclear Power/Submarine Assignments Branch (PERS-403).

3. Test Scores for Class "A" Schools

- a. The following notes apply to the tables listed in sections 3.c through 3.k:
- (1) **NOTE 1:** Vision correction 20/20. Visual acuity must be correctable to 20/20. When specified, uncorrected visual acuity must not be greater than that indicated (i.e., 20/100), and must be correctable to 20/20.
- (2) **NOTE 2:** Normal hearing (NH) required. Average hearing threshold level in frequencies (Hz) 3000, 4000, 5000, and 6000 must be less than 300db with no level greater that 45db in any one frequency. If hearing level exceeds these limits, the applicant is ineligible for the rating.
- (3) **NOTE 3:** The visual standard for Naval Special Warfare (NSW) is no worse than 20/40 best eye and 20/70 worse eye, correctable to at least 20/25 worse eye.
- (4) Minimum ASVAB requirements are based on ASVAB test form designators. In the below tables, the "(a)" listed under the ASVAB test scores qualifications column represents Pay 97 Forms and scores, "(b)" represents Pay 80 Forms.
- b. The following abbreviations apply to the tables listed in sections 3.c. through 3.k.:
